RevoFit 2In1
RevoFit moisture resistant moulding provides the functionality of a T-Molding and Reducer in a single, easy to install, piece. The unique flexible zone design of the RevoFit track allows installation of the profile in either direction, thus eliminating the guess work out of positioning the trim. It is designed to accommodate a wide range of LVF compatible for floors with a thickness range of 3-8mm.
See page 32 for stair edge options.

Congoleum

Vinyl composite tile, also known as VCT, is a material preferred by many contractors and builders for flooring. Although VCT is popular for commercial and industrial uses, there is no reason for you not to use this type of material for flooring at home. It is a popular alternative to conventional flooring materials.
